

e - NEWSLETTER

Edition 19/2015-2

Dear ECVPH Residents and Diplomates,

*As new president of the ECVPH it is my pleasure to address all of you in this newsletter **new style**.*

Indeed one of the new actions of the ECVPH council is that we will try to communicate more frequently by informing the membership of our college on our activities and any other relevant information.

*It is my honor to serve for the coming two year as the president of this great college. Indeed our **college is in great shape** which is reflected by the continuing large number of **diplomates (166 active)** we have but even more by the increasing number of **residents (93 at this moment)**. The good shape is obviously the result of the collective efforts by all its members but specially also due to the work done by the outgoing president Marcello Trevisani whom I would like to thank cordially for his effort and energy in the past years. Obviously also all other member of the council and especially the outgoing past president Matthias Greiner are thanked for their work. Note that we are continuously searching for new blood in the college council, which means that you are **welcomed to participate in all our activities** either in the council or in one of our committees (credentials, education, examination). If you are interested to participate do not hesitate to let us know.*

*I would also would like to take this opportunity to **thank Bojan Blagojevic and his local organizing committee** for organizing a great conference in Belgrade. Both the content as well as the organization was of a very high level and it was once again a pleasure to meet with so many Residents and Diplomates from all over Europe.*

*As indicated before, we will try to communicate more on all of our activities and procedures in the coming years. I would also like to point **out our website which contains a huge amount of very relevant information** <http://www.ecvph.org>. We are also increasingly describing our procedures in bylaws that are regularly updated and published on our website. This allows all members of the college to be informed on the procedures of the college.*

*Finally I **welcome all suggestions and feed-back** both from the Diplomates and Residents of the colleges on our work. I promise that we will consider all suggestions and take them into account as much as possible.*

Kind regards,

Jeroen Dewulf
President ECVPH 2015-2017
