

## ECVPH Annual Scientific Conference 2023 – Workshop D

### One Health Mural – Let's play (seriously) and put the One Health Concept into practice

September 21<sup>st</sup>, 13:30 – 15:30

**Context:** Projects such as greening school grounds or cities, antimicrobial resistance mitigation or zoonosis risk management raise health issues at human, animal and environment interfaces that require multisectorial and multidisciplinary approaches. All international health organisations now, promote the One Health Concept and encourage their staff and stakeholders to work together to achieve more sustainable health measures. Nonetheless, putting the One Health Concept into practice is challenging due to (1) its complexity that can lead in a partial understanding of the concept and (2) the limits of a standardized method for implementing the One Health approach in highly diverse projects.

**Objectives:** To play and address the One Health challenges. The One Health Mural is a serious game that addresses these challenges by (1) explaining the One Health Concept according to the OHHLEP definition<sup>1</sup> with 4 sets of cards and (2) suggesting a method to develop projects that require a One Health approach, using a case study. As well as highlighting the interdependences between human, animal and environmental health, the One Health Mural analyses the social barriers and levers to implement multisectorial and multidisciplinary health measures.

Beyond reinforcing your understanding of the One Health Concept and approach, the aim of the workshop is to try out this serious game and eventually, run it with your students or colleagues.

#### WHAT IS NEEDED TO MAKE A ONE HEALTH MURAL ?

A deck of OH mural cards

A team of 6-10 players

A OH Mural facilitator

2 hours to play, create, discuss

Materials (large sheet, pencils, etc.)

#### Agenda:

Time	Actions	Who
13h30 – 13h40	introduction of the game (objectives and rules)	Facilitator
13h40 – 14h50	think and build the mural using 4 sets of cards and your creativity	collective work in groups of 6 to 10 participants
14h50 – 15h00	progress report on the One Health Concept	All together
15h00 – 15h20	put the concept into practice using a case study on greening school grounds or antimicrobial resistance	collective work in groups of 6 to 10 participants
15h20 – 15h30	workshop wrap up	All together

**Organisers:** Florence Ayrat (facilitator on the site), Amandine Gautier, Chloé-Louise Morbois, Geoffrey-Edouard Vuillier

**Maximum number of participants:** 20 on the site (this workshop is not available online)
