

Biosecurity training in livestock production

Get up-to-date on the biosecurity aspects in livestock production with Biocheck's online training from **18 October** till **13 December 2023**. **Five sessions** (+ one optional) on Wednesdays (10 to 12 AM CET), including theoretical principles, practical implementations and e-learning exercises.

REGISTER NOW

- 18 Oct '23** Biosecurity principles and the link with animal health & production
- 25 Oct '23** Practical implementation of external biosecurity measures
- 08 Nov '23** Practical implementation of internal biosecurity measures
- 15 Nov '23** Quantification of biosecurity on farm-level + (virtual) farm visit
- 29 Nov '23** *Persuade farmers to implement biosecurity measures: tips & tricks*
- 13 Dec '23** Evaluation and discussion

Each session will be accompanied by short [e-learning modules](#) to recap the gained knowledge. Price for the full training (all 5 sessions + e-learning modules worth €50) is €465. The session on persuasion of farmers (± 2.5 hours) is **optional** to the program and costs €145 separately or €110 when part of the training package. The training will finish with an exam (€110), for those that want a **certificate**. All prices are exclusive of VAT.
